CURRENT CONCEPTS IN TREATING ISCHEMIC DIABETIC FOOT: A DISCUSSION WITHOUT FIGHTING

ROME

DECEMBER 11, 2017

CROWNE PLAZA ROME
ST. PETER'S

Via Aurelia Antica, 415

13.00 Participants registration
Welcome lunch

14.00 Welcome and opening remarks
Sergio Furgiuele

14.30 *Lecture:*
Diabetes in the third millennium:
old problems, new frontiers
Paolo Pozzilli

14.45 *Lecture:*
Treating the ischemic diabetic foot: state of the art
Luigi Uccioli

SESSION 1 OPEN, ENDO, HYBRID AND... NOTHING: WHICH IS THE RIGHT STRATEGY?

Panel: Roberto Anichini, Nicola Mangialardi

15.00 Open, endo and hybrid surgery:
when, why and especially... why not?
Stefano Michelagnoli

15.10 Revascularization of wound-related artery
Luca Mascellari

15.20 The best timing for revascularization in diabetic foot:
do we all follow the same protocol?
Luigi Uccioli

15.30 With an huge armoury do we still have nonrevascularizable
patients?
Alessandro Platone

15.40 Discussion

16.00 **Coffee-break**

SESSION 2 MANAGEMENT OF ISCHEMIC DIABETIC FOOT: OLD AND NEW HESITATIONS

Panel: Cristiana Di Campli, Francesco Spinelli

16.30 Negative pressure as a core strategy in the management
of open amputations: molecular and clinical implications
Marco Meloni

16.40 The ischemic Charcot foot: should we have a different
behavior?
Enrico Brocco

16.50 The Foot attack: time is tissue
Roberto Da Ros

17.00 Old and oldest diabetic patients: is it a boundary
for endovascular revascularization procedure?
Cristina Gatti

17.10 Discussion

SESSION 3 CELL & PHYSIO THERAPIES: OLD AND NEW WAY

Panel: Luca Di Marzo, Simona Frontoni

17.30 Neoangiogenesis & diabetes: fact or fiction?
Alessandra Magenta

17.40 Monocyte: an useful, pleiotropic and easy tool
Alessandra Paolini

17.50 The “vascular remission”: what does really mean
for diabetologist and vascular surgeon?
Dario Pitocco, Francesco Stilo

18.00 “The Podiatrist: The first defense against complications”
Giovanni Federici

18.10 Discussion

SUMMARY, REMARKS AND CLOSURE

19.00 Cocktail
